Future of Innovations: Industry, Academia, and Creative Tech

Special Guest: Caroline Parkinson, Director of Creative Economy at Edinburgh Futures Institute and Member of the International Advisory Board at the TAH - Centre for Innovations in Technology, Art, and Humanities

Join Caroline Parkinson, the Director of Creative at the Edinburgh Futures Institute, for an engaging showcase exploring how academia and industry can work together to innovate with creative tech, data and AI. This session will present recent example projects and creative works from Scotland, showcasing collaborations at the intersection of human expression, audience engagement and creative curiosity, where academic expertise meets creative industry. This rare opportunity brings Edinburgh's expertise directly to Prague, offering valuable insights for the Czech creative and academic community.
